PROJECT POSTER 4 OF 4 · THE TEAM

The crew behind Lexi AI

Five people, one pipeline: from a raw PDF to a cited, auditable answer. Ride the line and meet the owner of every stop.

1

STATION 01 · PLATFORM

Vidushi Bhadauria

Project Lead · Full-stack Engineer

- Flask web app and JSON API
- Database, migrations, roles & audit log
- Stripe billing, tests and CI
- Integrated every component end to end

2

STATION 02 · RETRIEVAL

Aryama Sharma

NLP & Retrieval Engineer

- Text pre-processing pipeline (NLTK)
- MiniLM embeddings + FAISS index
- BM25 + hybrid search ranking
- Retrieval evaluation: Recall@k, MRR

3

STATION 03 · UNDERSTANDING

Ashi Srivastava

GenAI & Extraction Engineer

- Local-LLM prompts: briefings, compliance, actions
- Citations and verbatim-quote verification
- BERT NER and contract-clause extractors
- Prompt-injection safeguards

4

STATION 04 · MODELS

Parth Nawal

ML Engineer · Classification

- Built the 280-sentence labelled dataset
- Trained and compared ANN, CNN and LSTM
- Evaluation: ANN wins with F1 = 0.84
- Shipped the winner into the Tagging page

5

STATION 05 · EXPERIENCE

Simran Karan Bora

UX, Data & Quality

- UI design and every screen you saw
- Sector test sets and the 10-page demo contract
- Manual testing and bug triage
- Demo, documentation and these posters

5	5	85	280	163
teammates	sector evaluation sets	evaluation questions	labelled sentences	automated tests

Thank you – questions welcome

Your documents. Your decisions. Instantly.
